Subject: [lislecag] July 13th DuPage County Board meeting

The DuPage County Board passed a resolution Tuesday authorizing the execution of the Intergovernmental Agreement for the provision of Lake Michigan water to areas of DuPage County affected by contamination. This action of the County Board was required by the DuPage Water Commission as a step in the final approval of the water provisioning plan. The next step is for one of the affected municipalities to also approve the intergovernment agreement. After that comes the actual implementation plan, where the municipality shall describe the method in which water will be provided.

Clearly, there's still a way to go but at least good progress is being made.

Also, The County Board appointed Elizabeth Chaplin to represent District 2 (part of our area) on the DuPage Water Commission. She replaces George Kouba who's term recently expired I believe. Liz Chaplin lives in the TCE/PCE contaminated area in unincorporated Downers Grove and has been at the forefront of the contamination issue for some time. She should make a strong advocate for water.
